

MODULAR SOLUTIONS **BUILT TOUGH**

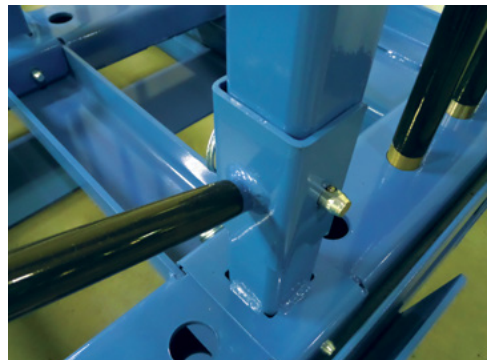

BRAWNFLEX CART & TROLLEY

UNLIMITED CONFIGURATIONS TO MEET VARIED AND CHANGING MATERIAL HANDLING NEEDS. **BUILT TO LAST A LIFETIME.**

Heavy use industrial rolling **BRAWNFLEX Carts and Trolleys** allow for unlimited configurations to meet varied and changing material handling and storage needs. Moveable posts, baskets, gravity shelving, and cantilevers enable the carts to hold and transport raw materials, wip, and finished goods within assembly operations (kitting), storage and to outside locations as a returnable carrier.

Modular and Configurable

Heavy Gauge Welded Construction

SPECIFICATIONS

- **.250" thick sheet metal** and heavy gauge wall thickness on tubing. Support arms are solid 3/4" diameter round bar
- 8" Diameter easy roll , chip resistant wheels. 2 swivel and 2 stationary lockable wheels.
- **46" wide; 3 lengths 4', 8' and 10'**
- Industrial powder coat finish
- Optional **Polyvinyl coated** support arms and separator posts for material protection

USES & BENEFITS

- Internal transport of materials between operations
- Point-of-use storage of components and materials for assembly operations where "kitting" is desired
- Acts as a returnable container/ platform for materials, or components
- **8,000# total weight bearing capacity**
- **Configurable to optimize usage of space.** All support arms, separator posts and uprights can move to fit any material, component, or package size
- Trolley and Cart are separate units and can be ordered individually, or together
