

MODULAR SOLUTIONS **BUILT TOUGH**

# COIL AND SHEET STAND

**BUILT TO LAST A LIFETIME.**

The **BRAWNTEC Coil and Sheet Stands** allow for safe, compact point-of-use storage of coil and sheet stock. Built for heavy use industrial applications where space is limited and rapid access to materials is desired. The Coil and Sheet Stands are manufactured in 2 widths.

**Easy access to quick inventory**

**Pre-drilled holes for anchoring**

## SPECIFICATIONS

- **Heavy gauge** welded construction
- Secure fit divider posts made from **heavy wall thickness steel tubing**
- Designed to **accommodate unlimited coil widths** with diameters up to 72", and sheet stock lengths from 24" to 144", and widths up to 72"
- Stands are produced in **2 widths 20" and 48"**, and the length is a standard 48". Stands can be placed end to end for unlimited area coverage
- Industrial powder coat finish
- **Rubber matting** between runners and **polyvinyl coated divider posts** are optional
- Pre-drilled holes for anchoring to the floor

## USES & BENEFITS

- **Point-of-use storage** of coils and sheet product **utilizing a small footprint**
- Easy access to quick inventory turning materials
- **Divider posts are movable to accommodate a wide variety of material sizes**; post positioning location holes designed for maximum density of product
- Eliminates the need for dunnage, pallets, cantilever shelving, etc
- Ideal for storing sheets on edge and horizontal coil eyes
- Storage for metal and paper coils; metal, plastic, and wooden sheets; or rod, bar, pipe, and tubing
